Mary Milroy will present the basics of Psycho-Spiritual Analysis using the GDV finger emissions and the GDV Diagram. She will share her techniques of Psycho-Spiritual Analysis using the GDV Capture 2 and the GDV Diagram programs for these cases. Her methodology is based on her work with Peter Mandel's Esoteric Colorpuncture and will help GDV users to further evaluate the emotional energy of their human subjects. Currently, she and Natalina Khavkin are working with KTI & Dr. Konstantin Korotkov of Russia to develop new devices for Psycho-Spiritual Biofield analysis, such as the GDV Ultra footplate, which will be available at the class.

Dr. Elena Yanovskaya and Natalina Khavkin will provide in-depth case analysis techniques. They will present diagnostic tips and techniques for differentiating energy emissions of disease pathologies for Mary's psycho-spiritual case presentations using the GDV software suite and the GDV Ultra footplate. Participants will also discuss and evaluate these cases.
